

## **COVID19 Access and Functional Needs (AFN)**

### **Cleaning Equipment and Devices**

Questions- Beth MacDonald [Beth.MacDonald@delaware.gov](mailto:Beth.MacDonald@delaware.gov)

**Cleaning should occur throughout the day and after using a rest room area or receiving personal care.**

Use antibacterial wipes, Alcohol wipes, Clorox or Lysol wipes.

When cleaning your equipment avoid products such as spray or aerosol cleaners which may saturate the device causing damage.

**Manage your own health by asking others to wash their hands.**

**Re: Your personal attendants:** do not be shy about asking your personal attendant to assist with cleaning your devices.

**You or a loved one may use some of the equipment listed below. Have you cleaned it today?**

#### **Mobility Devices:**

Crutches, and Canadian Crutches: clean the hand hold areas

Walkers: clean the hand holds and seating area

Scooters: clean the control mechanism and hand holds as well as any other commonly touched area

Manual Wheelchairs: clean - hand holds for those who may push the chair- self-movement hand holds on tire area – brake locks – arm rests

Power Wheelchairs: clean - the joy stick or control box area as well as arm rests a few times a day

**Communication Devices: clean these devices several times a day.**

**Computer and Technology:** Cell Phone, Computer, I Pad, Tablets, Keyboards, Laptops, Amazon Echo Dot, Amazon Spot

**Augmentative Communication Devices:** NOVA chats, Tobii Dynavox, GoTalks, adapted switches, PODD books, Core Word Sheets, Laminated communication cards and Writing Aids

**Hearing -** Amplified Telephones, Pocketalkers, Neckloop, Telecoils, Noise Cancelling Headphones, CapTel and SonicAlerts

**Vision:** Hand-Held Magnifiers, Ruby HD Hand Held Magnifier, Talking Watches, LED Table Lights

**Environmental Adaptations:** Mounting devices, Bluetooth Switches

#### **Personal daily living Tools:**

Special Utensils or feeding/ drinking items; Many of us travel with these items in our bags. Be sure to have them in individual Ziplock bags to keep them clean for each use

#### **Other Assisted Daily Living Tools:**

**Home medical devices:** such as Nebulizers, C-PAP devices and Medication Management Devices

Wipe down the outside of the equipment or clean these items as suggested by the manufacturer.
